RE: ExxonMobil Bernard Harris Summer Science Camp at Central State University

Dr. Harris

Thank You for partnering with Central State University to encourage students from underrepresented communities to pursue STEM education.

Your visit to Central State University has left a lasting impression on my daughter , Gabriel Gibson. It is the tireless efforts of organizations like The Harris Foundation that gives students the courage to continue to reach for the stars.

I and my family thank you for extending this opportunity to so many students.

Thank You

Jacqueline Renee' Duhon
